See reverse side for additional notes →

## **NOTES:**

- When upgrading from the 2002, 2004, 2006, or 2008 versions to the 2010 version, you will receive the same “license level” of the 2010 product as you currently have with your previous version. For example, if you currently have the “Level 2” license level of the CH2008 product, when you upgrade to CH2010, you will receive a “Level 2” license of CH2010.
- When upgrading from the 2006 and 2008 versions, the CH2010 includes an Upgrade Utility which will import all of your existing 2006/2008 version’s data into a new CH2010 data file. If you are upgrading from the 2002 or 2004 versions of Church Helpmate, you will need to send (by email or postal mail) your CH2002/2004 data file to Helpmate for conversion to CH2010 (this conversion service is free of charge and typical turn-around time is 1-2 business days).
- Your upgrade purchase also includes free upgrade support. This upgrade support covers phone and email assistance with CH2010 installation and conversion of your previous version’s data to CH2010. Additional assistance beyond installation and data conversion is not covered by this upgrade support. Additional support options are available through our “Premium”, “Standard”, “eSupport Plus” and “eSupport” support plans. Contact Helpmate sales for more details (sales@helpmate.com or 888-858-3247) or visit our website at [www.helpmate.com](http://www.helpmate.com).
- All prices in US\$
- Upgrade pricing and terms subject to change and/or discontinuation at any time without notice.

**THANK YOU FOR YOUR ORDER!**
